

GUIDING QUESTIONS

Guiding Questions Targeted on Technology Integration to Focus Professional Development

1. What mechanisms are in place in my classroom or our school for building student confidence?
2. How does the design of my classroom environment engage and motivate students, while honoring individual differences and meeting the learning needs of all?
3. Are students in my classroom challenged at their ability level with relevant and meaningful learning, and motivated to apply their knowledge and learning to real-world practice?
4. Do students in my classroom have opportunities to learn through various instructional approaches?
5. Do students in my classroom share the responsibility for their learning? Am I explicit in setting and communicating learning goals?
6. Do my learning resources include a range of technologies?
7. How does my collaboration within and outside my school help support my classroom and my students' learning?
8. Do the learning activities used in my classroom address the skills necessary for students to learn, work, and live successfully throughout their lives?
